

Measurably Better Health

Montgomery Township Health Department is committed to transparency, accountability, and doing what works to improve health in our communities.

We are focused on excellence in public health service delivery, reflected in our work toward achieving national Public Health Accreditation.

Mission Statement

Monitoring community health status to identify and solve community health problems is a core public health function. MTHD works with regional partners to conduct a variety of assessments. We collect data from local sources as well as state and national datasets to help make evidence-based decisions to help our towns stay healthy.

Community Health Assessment (CHA)

The **Community Health Assessment (CHA)** evaluates what factors are affecting our neighborhoods' health. What's making our neighbors sick, or helping keep us all healthy?

[Somerset County CHA Updated](#) | [Mercer Country CHA Updated](#)

Community Health Improvement Plan (CHIP)

The **Community Health Improvement Plan (CHIP)** identifies ways Health Departments, Hospitals, and community groups will work together to address what is impacting neighborhood health. [Somerset County CHIP](#) | [Mercer County CHIP](#)

Strategic Plan

The Montgomery Township Health Department’s [Strategic Plan](#) is based on feedback from our residents as to what public health issues matter most in our communities. The Strategic Plan identifies the Health Department’s role in implementing these improvement strategies.

Performance Management & Quality Improvement

“What Gets Measured Gets Done”

How do we know if what we do is making our neighborhoods healthier?

We *measure our performance* against the outcomes we seek. ([Performance Management Procedures](#))

We identify gaps where we could do better and *plan for improvement*. ([Quality Improvement Plan](#))
